

DS NORDIC DEEP DIGGING BUCKET

Key features:

- **Nordic Profile:** Optimized design for superior performance in Scandinavian conditions.
- **Exceptional Digging Depth:** Reach new depths efficiently, maximizing productivity and minimizing machine repositioning.
- **Rugged Construction:** Built to withstand demanding applications and extended use.

Optional features:

- **Heavy-Duty Wear Plates:** Extend bucket life significantly when working in highly abrasive environments.

The Hydraulic-Tilting Grading and Ditching Bucket offers precise control for mini-excavator grading tasks such as ditch cleaning and contouring. It tilts up to **45 degrees** for efficient work on **uneven terrain** and is compatible with excavators from 1.2 to 9.5 tons. The bucket features **durable construction** with a full-length bottom wear pads and **replaceable pivot bushings**. Optionally equipped with a **reversible bolt-on cutting edge** and additional features like spill guards, this attachment is designed for a **seamless fit** with major brands and to boost productivity.
